NINETEENTH YEAR, No. 11

GLEICHEN, ALBERTA, WEDNESDAY, JUNE 3, 1925

SUBSCRIPTION \$2.00 A YEAR

NORTH AND EAST MEADOWBROOK

(From our Own Correspondent)
Mrs. N. H. Stebbins and daughter Rachel visited Mrs. E. Dupont last Thursday p.m. Mrs. Dupont is taking charge of little Lawrence Desjardins while his mother is in Calgary.

The dance held in the Meadow Brook hall last Friday evening was put on by the Meadow Brook orchestra for the purpose of paying for the drums. The dance was largely attended, for being such a busy time. We were glad to see so many from Gleichen, and hope they continue their efforts to be present at the dances out here, to cheer things up and make it lively. The girls of the Meadow Brook Athletic Club served the lunch in a most gracious manner at midnight.

The baseball practice which took place on the Meadow Brook diamond Sunday afternoon was, indeed, interesting and exciting. The married men played the single men, and won by quite a large score, we'll not discourage the bachelors by mentioning it. A large crowd attended the game among which were a few good rooters. Just watch the Meadow Brook Mascots come to the front! Judging by some of the plays put up by the boys Sunday. We're here to say that some of the teams in the surrounding towns will look like a nickel and a quarter when Meadow Brook has finished with them.

The M. B. G. A. C. changed the announcement of their last meeting. It was understood that Miss Bowen should take the meeting but as it was inconvenient at that date, it was held at the home of Misses Myrtle and Marie Cunningham. Various games to be played this summer were discussed. Some of the girls were dissatisfied at the mention of basket ball, others at the mention of baseball. The girls are trying hard to come to a standing decision between the two. They hope to do so soon, and then be able to welcome new members. The furnishings which the girls agreed to buy for the hall were to be purchased in Calgary last week. But owing to an error made in writing out the cheque it could not be cashed, consequently the date for purchasing the furnishings will be postponed to the near future. Miss Brown has agreed to take the next meeting at her home on Saturday, June 6th at 2:30 p.m. A cordial invitation is sent to all girls of the community.

The cut worm has been doing damage to a number of fields north of town. F. Daw has suffered a loss of about 80 acres and David McBean is now busy reseeding 350 acres with flax seed.

F. E. Pobst has received word from his daughter in California that she has been successful in her university course and in the recent examination captured a B.A. Miss Pobst formerly attended the Arrowwood school.

June 9—Imperial Radio Orchestra in Gleichen

The famous Imperial Radio Orchestra is to make a visit to Gleichen. Few if any have not heard of this famous orchestra either over the radio or in the press. Their coming to Gleichen will be a welcome to lovers of good music. These talented musicians have travelled the four provinces including all the cities from Winnipeg to Vancouver and have made a spontaneous hit wherever they have played. This originality of syncopation have won them praise from leading musicians all over the continent. They will be in Gleichen on Tuesday, June 9th.

Don't forget the baseball practice on the Meadow Brook diamond just north of the hall, every Wednesday evening.

Big Pool Drive Underway

Next Monday, June 8th, the big livestock, Dairy and Poultry Pools drive starts and will continue until the 28th.

Minute details have been made for the drive throughout the entire province of Alberta and from now on the drive will undoubtedly be the main subject of conversation.

It is expected the same general interest will be taken in these three pools as in the wheat pool which proved such a great success.

Every person in Alberta, who has the best interests of the province at heart, should carefully study these questions, and lend their aid in carrying out the organization of the pools. Naturally there will be some who will refuse to sign up and while their opinions must be respected it should

not interfere in thoroughly examining into the matter, but rather a stimulus to investigate and learn the advantages or disadvantages, if there be any.

It is really a vital question the formation of these pools for their success will mean a great deal financially to our farmers and therefore a vital issue with the entire business of the province individually and collectively.

The directors have divided the province into seven divisions with directors in charge of each district. Thus the Gleichen district will be partly under the direction of Messrs. S. Sear and Norman Clarke, who will look after the appointment of captains, arrangements of meetings, etc.

Gleichen Stampede and Potlatch

Wednesday, July 1

Slogan: "The MONEY is in the BANK COME and GET IT!"

SHOULDICE ITEMS

(From our Own Correspondent)
An old red hen set on the track. She had a bunch of chickens. The south bound train came thundering by.
Toot! Toot! chicken giblets!
(Can you beat it?)

Mr. Harp has been trap-nesting a few of his Barred Rock pullets during the hatching season and realized 423 eggs in 83 days from 6 pullets. The total from each pullet was as follows: 70, 73, 72, 71, 66 and 71. From March 3rd to May 24. These pullets are mated to a Barred Rock cockerel with R. O. P. certificate, his dam having a record of 234 eggs and a brother of this cockerel was exhibited in 1924 at the World's Poultry Congress held in Barcelona, Spain.

Mr. and Mrs. McRae spent the holiday with friends at Vulcan.

At the Women's Institute meeting held at the home of Mrs. Geo. Brown, Mrs. Earle Harp gave a very interesting as well as instructive paper on "Gardening". Mrs. Crum answered the roll call with a humorous reading which caused much laughter.

It was decided not to send a delegation to the convention to be held in Edmonton, as the Shouldice W. I. is in infancy and our funds are quite low.

The next meeting of the W. I. will be held on June 10th at the home of Mrs. Frank Hall all interested ladies are invited.

Mr. Harp and family attended the Brethren services at Arrowwood on Sunday.

Miss Leahy who was at home on the farm the past winter with her folks secured a position in the spring in Bassano. She was unfortunate in contracting the mumps shortly after arriving in Bassano, but has recovered and we trust she is enjoying good health again.

With the approach of warmer weather Slim has another attack of horse trading.

Mrs. Leadbetter called at the home of Mrs. G. E. Harp on Sunday.

The Women's Institute will have pies, cakes, etc., on sale every Saturday at the general stores so that our bachelor neighbors may have some pastry on Sundays for their callers.

MINUTES OF BLACKFOOT M.D. MEETING

(Continued from last issue)

The materials used shall conform to the following specifications: viz decks and sidewalks to be six inch square timbers, the middle sills of material not less than three inches by eight inches.

9. That no steel culverts and road machinery shall be purchased except by the approval of at least two-thirds of the whole Council.

10. That all accounts for the work done shall be made out on forms provided therefore and shall, before being submitted to the council for authorization of payment, comply with the following regulations:

(a) The foreman shall secure the signature of the worker certifying that amount allowed on the sheet is correct.

(b) The back of the form so provided shall show the location, nature and cost of each different mile of road worked and the total sum shown shall agree with the total as shown on the face thereof.

Coun. Thorssen: That the resolution as read be adopted.

Much adverse criticism was encountered, part of the council maintaining that the old method of performing the work was satisfactory. After considerable discussion no proper resolution was adopted.

The proposed agreement re the draining of the slough in 19 and 20-24-21-4 was then placed before the council and discussed. Some changes were ordered made.

Coun. Dunstan: That the reeve and secretary be authorized to sign the agreement as amended. Carried.

Coun. Dunstan: That our weed inspector be a delegate to attend the convention of weed inspectors to be held at Olds on the 19th and 20th of this month. Carried.

Coun. Maynard: That all expenses of the road commissioner be a charge against the whole Municipality instead of against the various divisions as formerly. Carried.

Coun. Dunstan: That the accounts as O. K'd by the Finance Committee be paid.

Coun. Daw: That the secretary be authorized to sign the guarantee re admission of a resident of this Municipality to the Central Alberta Sanatorium at Calgary. Carried.

The secretary reported that the S E 19-24-23-4 had reverted to the C. P. R. through cancellation of contract, that this land had in no way been impaired, that therefore the arrears of taxes shown against this land were now illegal and requested that a resolution be passed authorizing the cancellation of those arrears.

Coun. Thorssen: That all taxes shown against this land to the end of 1924 be cancelled. Carried.

A letter from Mr. A. L. Williams of Standard was read in which he stated that several schools of this Municipality were taking part in the school fair to be held at Standard and that as the Bow Valley Municipal Council had made a donation to the school fair to be held at Standard.

The attitude of the Council was sympathetic but as the schools of this Municipality were taking part in at least four different school fairs a grant to one would mean a similar grant to each of the others. That would greatly exceed the amount the Council felt justified in expending.

Coun. Maynard: That the secretary notify Mr. Williams that we cannot make a donation to the Standard school fair.

Be ready for the Canvassers when they call. Attend the Pool Meetings in your district and Get Full Information on what these pools will mean to you.

WORLD HAPPENINGS
BRIEFLY TOLD

Foreign Minister Stresemann announced to the Reichstag that the German Government will continue to carry out the Dawes plan.

Canada's trade was ten million dollars greater in April than in April last year and the increase was chiefly in exports.

A report that the British Empire Steel Corporation had invited the mayors of various Cape Breton towns to a conference on the strike situation, was officially denied.

The British House of Commons had an object lesson at its luncheon on May 18, when every item on the menu was Empire-made and Empire-produced.

Indians as well as whites are staking claims in the Dease Lake area, Cassiar, B.C., according to a letter from W. S. Simpson, the Indian agent at Telegraph Creek.

Twenty thousand French-Canadians from all parts of Canada and the United States will congregate in Montreal, June 24, to celebrate the first official recognition of St. Jean Baptiste Day.

Premier Stanley M. Bruce announced that Sir John Lawrence Baird has been appointed governor-general of the Australian Commonwealth in succession to Lord Forster, who has held the office since 1920.

An international exposition will be held in Brussels in 1930 to celebrate the centenary of Belgium's independence. So far 17,000,000 francs of the 25,000,000 needed have been subscribed.

The total number of accidents reported on Canadian railways for the month of April in the return just issued by the board of railway commissioners, is 156, involving the deaths of 13 people and injuries to 199.

An unusual verdict was rendered by a jury at Stuttgart, Germany, when the whole communal administration of Doeffingen was found guilty of usury, and the members of the town council each fined 100 to 200 marks.

Ignace Paderewski, the famous pianist, is financing the drilling of an oil well in Bastrop County, six miles south of Smithville, Texas. The well is being managed under the name of Shad and Paderewski, and now is drilling at 1,600 feet.

Injuries received when the aeroplane he was piloting over Lower Bay, near Newdrop, Staten Island, struck an air pocket and fell 900 feet into the bay, caused the death of Lieut. James Jordan of the New York National Guard Air Service.

Horses For Ontario and B.C.

Thirty Carloads Have Been Shipped From Southern Saskatchewan

Southern Saskatchewan has shipped thirty carloads of heavy draft horses this spring to Ontario and British Columbia. Twelve carloads were sent from Maple Creek, ten from Plapout and one from the Regina district.

"One of the finest lots of horses ever shipped from the province was shipped to British Columbia by J. B. Winlaw, of Wynndel, B.C.," said J. G. Robertson, livestock commissioner. "He was assisted in assembling his carload by Alex. McLaren, Pense. He bought six head at Pense, two at Trearva and the balance near Regina. The top price was \$400 for a grade Clydesdale and he paid \$300 for several others. Most of the horses purchased were grade Percherons, several of them being sired by Kamerton, a class AA stallion."

A Heavy Responsibility

U.S. Has Weighty Burden in Organizing Nations for Peace

The United States has a "weighty responsibility" in working out its contribution toward organizing the nations of the world for peace, President Coolidge declared in an address at the nation high school oratorical exercises in Washington.

The president offered no specific plan and made no reference to the League of Nations which has been brought forward again there by the international council of women.

Good Colonization Work

Up to the end of March the Salvation Army, by arrangement with the British Columbia Government, and in return for an annual grant of \$6,000, brought into the province 216 new settlers, according to a statement issued by the minister of lands.

No Wonder She Was Late!

A little girl, on arriving late at school for the third time, was scolded by her teacher and told to write a composition on "punctuality." After a strenuous quarter of an hour she produced the following—"Punctuality is knowing where to make stops."

W. N. U. 1678

Sundering Of Empire
Is Extremely Remote

Dominions Hold Enviably Position As Members of British Commonwealth

Those superficial thinkers who are skeptical of royalty should ponder over what is taking place in South Africa. There, just recently, stood Edward, Prince of Wales, amidst the Dutch leaders of the old Transvaal, a unifying power, acclaimed by men who twenty years ago were the empire's foes. By the charm of his personality, by his graciousness, by his democratic bearing, by his background of tradition, by his symbolism of what the British monarchy means, the Prince probably achieved as much for unity in that historic gathering as a score of acts of parliament could probably achieve.

Today the world perceives that under the British crown, under the British monarchist system, there flourishes the freest, the most representative and the most responsible government that history has seen. It perceives, too, that mere professions of freedom do not constitute freedom itself, that the terminology of liberty and liberty itself are two distinct things, that the mere assertion of devotion to representative government, so common in republics, does not in actual practice make governments representative.

It is something vast, something splendid, to be part of such a system. South Africa as a weak Republic, Canada as a state of the American Union—what would these be in comparison to their position as members of the British Commonwealth? That is the question that thoughtful men ask themselves; and just so long as they ask it, just so long as that interrogation remains, possibility of a sundering of the British empire is extremely remote.—Ottawa Journal.

Importance of Mining

Six Hundred Million Dollars Invested In Industry

In a recent report issued by the Dominion bureau of statistics it is stated that over six hundred million dollars of cash is invested in the mining industry of Canada. In point of capital investment, mining exceeds all Canadian industries, with the exception of agriculture and railway transportation. In the report the mining industry is credited with a total investment of capital amounting to \$559,514,154, and with par valuation of securities amounting to \$774,749,281. These figures give some idea of the tremendous size of the mining industry in Canada.

About half the mining capital is invested in the province of Ontario. Canadians provide 54 per cent, Americans 31 per cent, residents of Great Britain 13 per cent, and residents of other countries 2 per cent, of the capital invested in the industry.

The securities issued by mining and allied chemical companies reached one billion dollars three years ago, when the last figures were available from government sources. This figure is 50 per cent, of the total for all the companies in Canada engaged in manufacturing.

Activity In Building

Increase In Amount Of Building Is Very Encouraging

An increase of over \$90,000,000 in the value of contemplated new construction in Canada has taken place during the first four months of this year, according to figures which have been compiled by MacLean Building Reports Limited. The total value of new building in the Dominion during the month of April, 1925, was \$11,494,600 more than in April, 1924, or a total of \$21,895,900, compared with \$13,392,900.

The past four months' total for contemplated work is \$224,063,100, as against \$133,189,100 for the same period in 1924. Residential building accounted for 43.5 per cent, of the April total, and amounted to \$10,829,000; business building 28.1 per cent, amounting to \$6,591,700; industrial building 9.9 per cent, amounting to \$2,472,500; and public works and utilities 18.5 per cent, amounting to \$1,593,700.

Drive For Wheat Pool

Campaign In Saskatchewan Will Be Started In June

The management of the Saskatchewan wheat pool, immediately the provincial elections are over, will start a province-wide movement to secure 2,000,000 additional acres under contract.

Organization work for the effort has already been started at the head office at Regina. At the same time it will attempt to secure the necessary percentage of acreage for the coarse grain pool which will operate for the first time this year. The initial move for coarse grain acreage is the mailing of the contracts to all wheat pool contract holders.

Closer Contact Between
English-Speaking Nations

Cordial Relations Between Britain and United States Emphasized by Sir Esme Howard

Eloquent addresses delivered by Sir Esme Howard, the British ambassador, and United States Secretary of Labor Davis at the Canadian Club banquet in Washington recently, emphasized the earnest desire of British and American statesmen to advance the cordial relations so long existing between Canada and the United States. Secretary Davis was born in Wales, and he could therefore speak with sympathy and understanding to United States citizens of Canadian birth. He made it plain that the exclusion of undesirable aliens was a benefit to both countries, and expressed the hope that both countries might have a population devoted to liberty and representative government.

Sir Esme Howard showed no sympathy with those who feared that closer relations between this country and the Dominion would be prejudicial to the British Empire. His excellency spoke in part as follows:

"I recognize that every meeting of this kind helps to cement and strengthen the rapidly growing sentiments of friendship and goodwill between the nations of the British Empire and the United States whose hospitality we here enjoy."

"The springing up of Canadian clubs and English-speaking unions throughout the United States will never, I am convinced, give cause for anxiety on the part of this country. We in England only want friendship and good fellowship—we have no other axe to grind—and I have not yet heard any whisper that the Canadian clubs were promoting an agitation in this country for the annexation of the United States by Canada. There is thus no hyphenated business about these various institutions, but all are working in a spirit of Christian fellowship for the promotion of peace and goodwill."

"Very soon I hope that we shall witness another event that will, I believe, tend to draw together still more the English speech all the world over. I refer to the coming visit of the American Pacific fleet to Australia and New Zealand, those two great democracies of the southern seas. I have no doubt that the American sailors will receive on those shores a rousing welcome that will go straight to the hearts of the people of the United States."

"Canadians are so near the United States that contact is close and continuous, and there is no need for special and continual demonstrations of friendship. We can take that for granted. People that live constantly side by side need not be always indulging in such demonstrations."

Evidence of Thrift

Alberta People Investing In Government Saving Certificates

More than a million and a quarter dollars were invested in Alberta Government saving certificates during the first four months of the year, over and above the amount that was withdrawn. This confirms the showing of previous reports that it is not true that "nobody is making any money these days," or that "nobody is saving money." People do not buy government securities unless they have made money and want to save it. The demonstration that people are doing this is a good deal more important than the fact that the government borrowed the money in this way instead of by issuing bonds and selling them in New York or elsewhere to people who do not have to save.—Edmonton Bulletin.

Settle In Saskatchewan

Thirty-one British Families Located In Three Weeks

Thirty-one British families have been placed on farms in Southern Saskatchewan during the last three weeks by the Southern Saskatchewan land settlement branch of the department of immigration and colonization. Practically all the immigrants were engaged in farming in Great Britain, but there is one London policeman and his family with them.

Canada's Wheat Exports

Canada's wheat exports in March, 1925, amounted to 4,422,518 bushels, according to government returns. In the eight months ended March 31 last, wheat exports totalled 104,241,020 bushels, a decrease compared with the corresponding period of the previous year, due, largely, to lower stocks available for export.

A Long Pie

Mr. Newlywed (at dinner).—Dear, what kind of pie is that?
Mrs. Newlywed.—Rhubarb, darling.
Mr. Newlywed.—Well, why did you make such a large one?
Mrs. Newlywed.—Because I could not get any shorter rhubarb.

ECLIPSE
FASHIONS
Exclusive Patterns
by Hazel Bayne

Simple to Make and Smart

What a dainty bloomer dress for the little miss, copied from a Paris model of printed silk. Tiny tucks over shoulders, short kimono sleeves, and a collar which may be omitted. Long sleeves are provided. The separate bloomers are gathered into knee bands. Cotton figured crepe, chambray or checked ginghams are materials suggested for this model. Child's bloomer dress No. 1005 cut in sizes 1, 2, 4 and 6 years. Size 6 requires 1 1/2 yards 36 or 40 inches wide for dress, with 3/4 yard plain for collar. Bloomers require 1 1/2 yards 36 or 40-inch material.

Government Nurse Has

Thrilling

Carried Mile Out to Sea on Cakes of Ice

After narrowly escaping being carried to sea on a cake of ice while mushing around Cape Thomson, far within the Arctic Circle, on the north coast of Alaska, and experiencing other harrowing adventures on an expedition of mercy, Mrs. G. O. Brady, government nurse, has returned safely to Kotzebue Sound, a dispatch relates. Mrs. Brady started north March 27 from Kotzebue with Superintendent Chance to give medical attention in native villages and schools. Three hours after the departure, Chance and Mrs. Brady were overtaken by a blizzard, and were forced to take refuge in a native cabin at the mouth of Noatak River, after 14 hours of driving in a temperature of 30 below zero.

When the storm subsided, they continued to Point Hope, 800 miles north of Kotzebue Sound. On the return trip, Mrs. Brady was accompanied by a native musher, as Superintendent Chance had preceded her. Exceptionally high winds wrenched free ice cakes upon which Mrs. Brady and her guide were rounding Cape Thomson, and carried them seaward for more than a mile, before a reef stopped them and they could make their way to shore.

The Passing of Ellis Island

Likened to the Abolition of a Monster and Would Cause Little Regret

Its end would be hailed with little regret. From the government's standpoint it would be the passing of a "white elephant." From the humanitarian standpoint it would be the abolition of a kind of monster. Even in recent years the alleged horrors of the place were pictured in none too euphemistic terms in the British House of Commons. The Geddes report on the sanitary conditions stirred some English politicians and brought forth many explanations from the department of labor. The old system, because of the great number of immigrants, caused many to be treated more or less like animals. The old system has passed and now, too, will soon pass this somewhat notorious landmark of it.—Louisville Courier-Journal.

Raymond Sugar Factory

Well over six thousand acres have been prepared for the growing of sugar beets in the area tributary to the new beet sugar factory, which is being erected at Raymond, Alta. Work is now being started on the factory which will be rushed to completion.

Charged Duty On
Large British Flag

Intended For Gift But U.S. Customs Officials Had to Keep Law

A duty of \$12 levied on a large British flag brought to the United States by the British advertising delegation, to be presented to the city of Houston, Texas, where the Advertising Clubs of the world were meeting in convention, aroused the ire of New York advertising men.

The flag brought by the British delegation was a large and handsome emblem of embroidered silk. It was a British flag brought to reciprocate for the beautiful American flags presented to English cities last year by American delegations to the advertising convention.

The customs men told the British delegates that the law required the levying of a duty of \$12. The delegation explained that the flag was to be a gift but the authorities pointed to the law which makes no provision for such emergencies. The visiting delegates paid the duty and left with the flag.

When the New York advertising men heard about the incident they were indignant. They communicated with the customs authorities and asked for a refund of the money, but were informed that only a special act of congress could grant the request.

"It is one of those unfortunate cases where the law works a hardship," said an official. "The law gives us no discretion in such matters. The law is on the books and we are charged with the responsibility of enforcing it. If the people don't like the law they should have it repealed or so changed as to meet these special cases."

The New York advertising men met the situation by refunding the \$12 duty to the British delegates.

Growth Power of the West

Redistribution of Ridings Will Give the West More Representation

The Toronto Star remarks that the trend of political power in Canada is shown by the redistribution of ridings under which the next federal election will be fought. It says: "Quebec will keep its quota of 65 members, but the representation of the west will be increased from 56 to 68, an increase of 12 members, giving it control of 27 per cent. of the seats in parliament as against 23 per cent. in the present house."

"Western Canada feels that her interests have not been sufficiently considered in matters of tariff and transportation, although the average easterner is certainly not unsympathetic toward the needs of that part of the Dominion. The attitude of our big interests and politicians may have fostered a wrong impression. But as the prairies fill in, the west will gain power to ensure that its welfare is not disregarded."

Miser Dies Of Starvation

Body Found In Smyrna Hovel With Million In Gold and Jewelry

The body of a millionaire who died of starvation recently was found in the beggar's quarter of Smyrna. The man, about 80 years old, was known to most of the inhabitants of the city. When he had not been seen for several days, the police were informed and forced an entrance to his squalid habitation.

Among his filthy possessions were found large stocks of gold and silver coins, bank notes, and jewelry, the value of which was estimated at \$1,164,000. There was no food in the place except a pile of rotten oranges. It was said the miser had inherited his fortune from his wealthy family when he was a young man, and that his love for his money made of him an enemy of mankind.

Follow Alberta's Lead

Several of the United States are following the lead of the province of Alberta in adopting official cream grading systems. The latest to seek information is the state of Illinois, where it is hoped to work out some such system this year. The state of West Virginia is also endeavoring to inaugurate a system modeled on the Alberta system. It is expected that Dr. Mackay, secretary of the American Association of Creamery Butter Manufacturers, will visit Alberta this summer to study the system in Alberta.

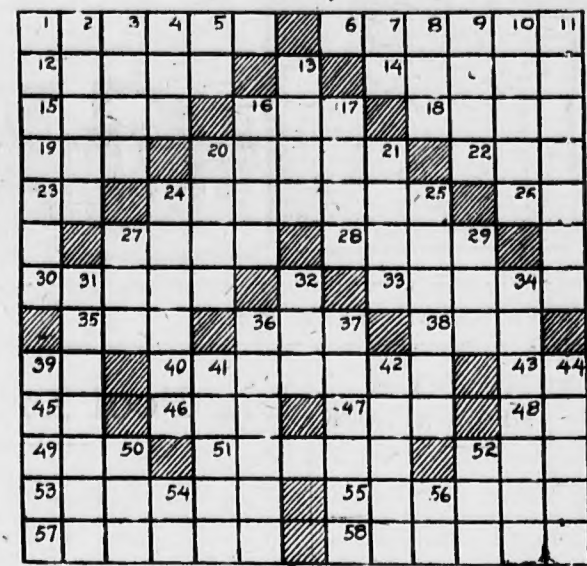

Vessels For The Far North

Four small wooden vessels, well powered and sheathed in iron bark, are being built at Vancouver to the order of the Hudson's Bay Company, for use in the Arctic. They will act as tugs and feeders from Coronation Gulf to Herschel Islands.

They Are Amusing

Women wear straw hats before straw hat weather arrives; men defer wearing them long after it has come. Which is only one of the many things that make the human race the amusing institution it is today.

OUR CROSSWORD PUZZLE

Horizontal
1—Habituate.
6—Freight stations.
12—Male bee.
14—One-fourth gallon.
15—Token.
16—Article.
18—Stellar body.
19—Little devil.
20—Cogitate.
22—Mineral spring resort.
23—Radium (chem. symbol).
24—To utter violent denunciation.
26—Tin (chem. symbol).
27—Useless plant.
29—Hastened.
30—To acquire information.
33—Twist.
35—Stray.
38—Metric unit of land measure.
39—Imitate.
40—Chlorine (chem. symbol).
43—Pint (abbr.).
45—Upward.
46—Disencumber.
47—A primary color.
49—A Eurasian deer.
51—Preclude.
52—Cannon.
53—Dairy product.
55—Pertaining to Nicaea.
57—Series of steps.
58—Supposed.

Vertical
1—Highest naval rank.
2—A theatrical play.
3—Hamlet.
4—Writing fluid.

War Monuments Encircle Globe

Sacrifices of British Troops Commemorated In Every Country

A chain of monuments to the sacrifices made by British troops during the World War, encircle the globe. The report of the imperial war graves commission says the beginning of the chain is in the graveyards on the channel shores of France and Belgium, extends in an almost unbroken line to the Vosges, continues in Switzerland and on through Italy to Macedonia, the Balkans, Gallipoli and Smyrna to Syria and Palestine to cross the Mount of Olives.

The chain breaks there into two sections, one passing through Egypt to East Africa and the other going eastward to Mesopotamia, India and China before crossing Australia and New Zealand on the way to Canada and Great Britain and Ireland.

Britain's Financial Honor

Nations Reputation For Paying Debts Is Invaluable Asset

The fact that Great Britain never tried to argue the validity of her war loans has helped her immeasurably. The act of refunding her debt to this country enhanced her time-honored reputation for the strictest probity in all financial affairs. Neither the British Government nor the English bankers have ever lost sight of the fact that world confidence in a nation's financial integrity is the greatest asset it can possess. The gradual rise of sterling toward parity during the last few years has been coincident with an ever-deepening faith in the financial honor of the British Empire.—Providence Journal.

Crow's Nest Pass Mines

Great Activity and Increased Output Is Shown

Between 8,000 and 9,000 tons of coal are being mined daily now in the mines of the Crow's Nest Pass. The two mines at Coleman, the mine at Blairmore and Bellevue are rapidly striking their stride, the output there being five to six thousand tons. At the Fernie mines the daily output is approximating 3,000 tons. There is only one mine in the district not working.

Alberta Egg Production

Province Exported 133 Carloads of Eggs Last Year

Egg exports from Alberta increased 33 per cent. during 1923, compared with the year previous, according to a report of the provincial department of agriculture. Three years ago, Alberta was almost entirely an importing province with respect to eggs, but last year it exported more than 60,000 cases, or 133 carloads.

Cabbage was first introduced in Great Britain in the sixteenth century.

Butter From Alberta

Total Production This Year Expected To Reach 25,000,000 Lbs.

Last year the province of Alberta exported to the British Isles and other countries over 4,000,000 pounds of butter, which was a little less than one-fifth of the total provincial production of creamy butter. During the present season it is anticipated that the surplus for export will increase to 7,000,000 pounds, which would be seven times what the exportable surplus was four years ago. This is an indication of the manner in which the dairy industry has grown in Alberta. The increase in the exportable surplus of butter is in a great degree due to the improvement in quality arising from the official cream grading system inaugurated by the Provincial Government in co-operation with the creamery operators three years ago. The anticipation is that the total production of creamy butter will this year reach 25,000,000 pounds.

Market In Belgium
For Canadian Cheese

Pasteurized Product Wrapped In Tin-foil Has Been A Success

During the last nine months of 1924 the imports into Belgium of Canadian cheese amounted to 1,764,800 pounds, which was a considerable increase over the imports of the corresponding nine months of 1923. "The increase this year," writes the commissioner, "is largely to be attributed to imports of patent Canadian pasteurized cheese in five-pound packets wrapped in tin-foil, which has had a real success on this market. One exporter of this cheese considers that it is now permanently established and sales of 20,000 boxes per month are mentioned at present."

Abandons Horse For Auto

At the age of 81, Dr. George T. Harding, father of the late president, abandoned the one-horse shay he has driven for fifty years and bought a flivver. Dolly, his faithful horse, will be sent to the country to "live on the fat of the land."

No doctor should have more than 2,500 patients on his list, says a British medical authority.

It is easy to smile at trouble—when it visits your neighbor.

Cleans Like China

When you use **SMP Enameled Ware** Utensils, you never need to scrape, scour and scrub the way some wares demand. Hot water, soap, a cloth—that's all you need to clean them. It washes like china, has the cleanliness and surface of china, but wears like steel. Don't be the slave of your cooking ware; equip with clean, pure sanitary, lasting

A Romance of the Spanish Main
CAPTAIN BLOOD
RAFAEL SABATINI

Copyrighted, 1922, by Rafael Sabatini
"CAPTAIN BLOOD," a Vitaphone picture with J. Warren Kerrigan
in the title role, is an adaptation of this thrilling novel.

CHAPTER XX.—Continued

"If they so much as put a shot across my bows, up goes their Deputy-Governor to the yardarm. Your only hope, Colonel, lies in the fact that I shall send them word of that intention. And so that you may mend as far as you can the harm you have done, it's yourself shall bear them the message, my lord."

"I'll see you damned before I do," fumed his lordship.

Weak, Lost In Weight

Wm. E. BRUSH

Windsor, Ont.—"For over six months I was in ill health—was not able to do a day's work. I got very weak and lost in weight, could not eat, suffered from poor circulation, chilly all the time and had a slight cough. I doctored but still kept going down and everyone thought I was going into a decline. I finally began taking Dr. Pierce's Golden Medical Discovery and thru the use of this medicine I was completely restored to good health. I gained in weight, my circulation improved and I could eat. Then I went back to my work and never felt better. I have been a strong and healthy man ever since, which I owe to Dr. Pierce's Golden Medical Discovery."—William E. Brush, 450 Douglass Ave.

W. N. U. 1578

kindly—if it's only in her prayers.

That's all, my lord."

Lord Julian held out his hand. "I wonder whether you are right," said his lordship, "and whether you are not the better man."

"Where she is concerned see that you make sure that I am right. Good-bye to you."

The Arabella sailed within the hour, moving lazily before a sluggish breeze. The fort remained silent and there was no movement from the fleet to hinder her departure.

CHAPTER XXI.

War

Five miles out at sea from Port Royal, whence the details of the coast of Jamaica were losing their sharpness, the Arabella hove to, and the sloop she had been towing was warped alongside.

Captain Blood escorted his compulsory guest to the head of the ladder. Colonel Bishop breathed freely at last. "A safe voyage home to you, Colonel, darling," said he in valediction, and from his easy, smiling manner you would never have dreamt of the pain he carried in his breast.

On the mole at Port Royal, under the low, embattled wall of the fort, Major Mallard and Lord Julian waited to receive him, and it was with infinite relief that they assisted him from the sloop.

"Anyway, it's not for long," growled the Colonel, finding speech at last. "No, by . . ." He emphasized the assurance by an unprintable oath. "If I spend the last shilling of my fortune and the last ship of the Jamaica fleet, I'll have that rascal in a hempen necktie before I rest." He had emperied in his angry vehemence, and the veins of his forehead stood out like whipcord. "Come, my lord. We must take order about this, you and I."

They went off together, skirting the redoubt, and so through courtyard and garden to the house where Arabella waited anxiously. The sight of her uncle brought her infinite relief, not only on his own account, but on account also of Captain Blood.

"You took a great risk, sir," she gravely told Lord Julian after the ordinary greetings had been exchanged. But Lord Julian answered her as he had answered Major Mallard. "There was no risk, ma'am. So that Blood's ship was allowed to pass the fort, no harm could come to Colonel Bishop. Blood pledged me his word for that."

Very early next morning, before the heat of the day came to render the open intolerable to his lordship, he espied her from his window moving amid the azaleas in the garden. He hurried forth to join her. He explained himself by the announcement that he bore her a message from Captain Blood.

reasoning. But if you insist, why, another messenger will do as well, and another hostage aboard—as I had originally intended—will make my hand the stronger."

"Aye, in God's name, go, my lord," spluttered Bishop, "and make yourself obeyed."

Lord Julian bowed stiffly to the cowering Deputy-Governor. "You understand, sir, that I do as you desire," he said coldly.

"Aye, man, aye!" Bishop assented hastily.

"Very well," Blood escorted Lord Julian to the entrance ladder at the foot of which still swung the Arabella's own cock-boat.

"It's good-bye, my lord," said Blood. "And there's another thing." He proffered a parchment. "It's the commission. Bishop was right when he said it was a mistake."

"I am sorry," Lord Julian said sincerely. "I still do not perceive—blister me if I do!—why you should not have found someone else to carry your message to the Commandant, and kept me aboard as an added hostage for his obedience to your wishes."

Blood's vivid eyes looked into the other's that were clear and honest, and he smiled, a little wistfully. A moment he seemed to hesitate.

"Why shouldn't I tell you? It's the same reason that's been urging me to pick a quarrel with you so that I might have the satisfaction of slipping a couple of feet of steel into your vitals. When I accepted your commission, I was moved to think it might redeem me in the eyes of Miss Bishop—for whose sake, as you may have guessed, I took it. But I have discovered that such a thing is beyond accomplishment. I should have known it for a sick man's dream. I have discovered also that if she's choosing you, as I believe she is, she's choosing wisely between us, and that's why I'll not have your life risked by keeping you aboard whilst the message goes by another who might bungie it. And now perhaps you'll understand."

"And you tell me this?"

"I tell you because . . . Oh, plague on it!—so that ye may tell her, so that she may be made to realize that there's something of the unfortunate gentleman left under the thief and pirate she accounts me, and that her own good is my supreme desire. Knowing that, she may . . . faith, she may remember me more

amongst us we have marred his chances; your uncle, because he could not forget his rancour; you because . . . because having told him that in the King's service he would find his redemption of what was past, you would not afterwards admit to him that he was so redeemed. And this, although concern to rescue you, was the chief motive of his embracing that same service."

She had turned her shoulder to him so that he should not see her face. His lordship's unusual nervousness was steadily increasing. "He thought, then—so he told me—that my presence here had contributed to his inability to redeem himself in your sight; and unless he were so redeemed, then was redemption nothing."

"He thought that you had contributed?" she echoed.

"Aye, and he said so in terms which told me something that I hope above all things, and yet dare not believe, for, God knows, I am no coxcomb Arabella. He said . . . I had gone aboard his ship to demand the instant surrender of your uncle. He laughed at me. Colonel Bishop should be a hostage for his safety. By rashly venturing aboard his ship, I afforded him in my own person yet another hostage as valuable at least as Colonel Bishop. Yet he bade me depart; not from the fear of consequences, for he is above fear, nor from any personal esteem for me whom he confessed that he had come to find detestable; and this for the very reason that made him concerned for my safety."

"I do not understand," she said, as he paused. "Is not that a contradiction in itself?"

"It seems so only. The fact is, Arabella, this unfortunate man has the temerity to love you."

She cried out at that, and clutched her breast whose calm was suddenly disturbed. "Go on," she bade him.

Then, he saw in me one who made it impossible that he should win you—so he said. Therefore he could with satisfaction have killed me. But because my death might cause you pain, because your happiness was the thing that above all things he desired, he surrendered that part of his guarantee of safety which my person afforded him. If his departure should be hindered, and I should lose my life in what might follow, there was the risk that . . . that you might mourn me. Because of that he bade me leave his ship, and had me put ashore." She looked at him with eyes that were awash with tears.

"Was he right, Arabella? My life's happiness hangs upon your answer."

WHEN BABY IS ILL

When the baby is ill; when he cries a great deal and no amount of attention or petting makes him happy, Baby's Own Tablets should be given him without delay. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus drive out constipation and indigestion; break up colds and simple fevers and make feeding easy. They are absolutely guaranteed to be free from opiates and narcotics and can be given to even the new-born babe with perfect safety and always with beneficial results. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Well Known Woman Inventor

Has Organized Company to Manufacture Labor-Saving Devices

Women as inventors have applied for more patents in England during the last few months than at any other period in history. Most of these devices are labor-saving machines for use in the ordinary household where there are no servants. Among them is an electrical dish washing machine which will clean the dishes of a family of 12 within a few minutes at the cost of one-twelfth of an English penny. One of the best known British woman inventors is Mrs. E. M. Bolton, member of a family of inventors, and who recently organized a company which will manufacture labor-saving devices. She is a grand niece of Sir Humphrey Davy, who conceived the miner's safety lamp. One of her inventions is a complete laundry which may be operated by a housewife who has no maid, without getting so much as even a drop of water on her fair hands.

PIMPLES WERE VERY PAINFUL

On Forehead, Cheeks and Chin. Cuticura Heals.

"My face began breaking out with pimples, first my forehead, then cheeks and chin, and it was an awful looking sight. The pimples were hard and red and after a time came to a head and scaled over. They were very painful at times and the trouble lasted about three months."

"I tried different remedies without any benefit. I began using Cuticura Soap and Ointment and I was completely healed after using three cakes of Cuticura Soap and one box of Cuticura Ointment." (Signed) Mrs. Algot Landgren, McCord, Wis., Aug. 12, 1924.

For Aches and Pains Use Minard's Liniment

Many Homesteads Taken Up

100,000 Acres Homesteaded During First Three Months of This Year

Approximately 100,000 acres were homesteaded in the four western provinces during the first three months of this year, with 620 persons filing. Saskatchewan got the largest proportion of these settlers, while Alberta was second with 227, Manitoba third with 80 and British Columbia last with 27. During the first quarter of the year 100 soldier grants also were taken up, representing 7,000 acres.

Pain In The Muscles, Stiffness In Joints, Quickly Subdued By Nerviline

Those who have tested out numerous liniments will agree that where something is needed to dislodge a deep-seated, more or less chronic condition there is nothing to compare with Nerviline. It's because Nerviline penetrates so deeply, because it has about five times the strength of the ordinary oily preparation, it has come to be known as King over all Pains. For rheumatic conditions, muscular and joint stiffness, Nerviline works wonders. A trial proves this. Get a 35 cent bottle from your dealer to-day.

Socialism and Capitalism

The Dreamers Who Would Upset the Present Social Order

If there were no need of betterment there would be no need of politics. But it is a long leap from the proposition that capitalism has not produced an earthly paradise to the proposition that it must therefore be replaced by a totally different system founded on a theory of which nothing is known but that its champions disagree among themselves as to what it means, and that the attempt to put one version of it into practice has resulted in a frightful national catastrophe.—London Daily Telegraph.

She Was Obligated To Take To Her Bed

Then Mrs. J. Derocher Used Dodd's Kidney Pills

Quebec Lady Suffered From Kidney Trouble and Found Complete Relief In Dodd's Kidney Pills.

South Stukely, Que.—(Special)—That relief can be obtained from all kinds of kidney disorders by using Dodd's Kidney Pills is again evidenced by the testimonial received from Mrs. J. Derocher, a well known and highly respected resident of this place. She writes:

"I was attacked with a malady that at first I did not think was serious until about the beginning of last March, when it became evident that I could do nothing. I consulted a doctor and he told me I was suffering from kidney trouble."

"I was obliged to take to my bed. I had a Dodd's Almanac in the house and read a few of the testimonials, then bought 3 boxes of Dodd's Kidney Pills and a box of Diamond Dinner Pills."

"I can assure you that they have made me well, and the pain in my back between the shoulders is gone. I am completely relieved of my trouble."

Mineral Deposits In Antarctic

But No Vegetation That Will Maintain Animal Life

Rich mineral deposits exist in the Antarctic, according to a New Zealand explorer who accompanied the Norwegian whaling fleet which recently returned from the Ross Sea. He reported that although coal and other minerals were found in the Ross Dependency, there was no prospect of establishing any industry there. There is no vegetation to maintain animal life.

That's Why

"How did you like your new room?"

"All right, except that the man across the hall is learning to play the flute."

"You ought to get a saxophone."

"I did; that's why he got the flute."

Proverb Amended

Mrs. A.—You can't judge people by their clothes, you know.

Mrs. B.—At any rate, not until you see their family wash out on the line.

As a vermicide an excellent preparation is Mother Graves Worm Exterminator. It has saved the lives of countless children.

Dogs May Bathe

There is now no excuse for Munich dogs going about dirty. A public bath for dogs has been established and is open daily from 8.30 a.m. to 7 p.m.

Fraser Canyon Road

The Fraser Canyon road, which will complete the trans-provincial highway, linking with the western prairies, will be completed soon.

Another Old Custom Passes

Whip-Women Of London Leave Old Covent Garden

The whip-women of Covent Garden are going to abandon the precincts of this famous produce market for the same reason that the village blacksmith is becoming an automobile salesman. The whip-women are among the picturesque denizens that go along with this most picturesque market square, and for the last 300 years an unbroken line of members of their families have checked the whips of the produce growers who frequent this market.

This concession of whip checking, which has supported many families for so long a time, was granted to six ancestors of the present-day whip-women in the sixteenth century when Covent Garden was really a convent garden of the Monks of Westminster outside which the farmers brought their garden truck to sell.

In that century half a dozen whip-women took charge of the whips of the farmers to keep them from the hands of thieves, and collected a penny from the owner at the end of the day. The number of whip-women has grown to 12 because some women left their share of the concessions to two daughters, but even though the price of checking whips is now threepence, the whip-women of today cannot make a living, they say.

Iodine Is Rarest Of Human Elements

Body Contains But One Five-Thousandth Of An Ounce

There is only a tenth of an ounce of iron in the human body, yet that small quantity is essential to life. But compared with iodine, iron is an abundant human element, writes Dr. Milo Hastings, of New York. The amount of iodine in a healthy human is about one five-thousandth of an ounce. Counting ten million people in New York and vicinity this would give us about a hundred pounds of iodine for the community. One man could carry the iodine for the whole ten million of us—but if we let him do so, the other 9,999,999 of us would promptly die.

This sound like a lot of fool theory—but it is as well proved as any fact known to the science of life and health. This minute quantity of iodine is contained in our thyroid gland, and because of it that gland performs its function of controlling the growth and normal development of body and mind.

Making Bank Of England Notes

Whole Process Is Surrounded By The Greatest Privacy

The manufacture of the paper from which Bank of England notes are made is surrounded by the greatest privacy. This paper has been made in the same factory, at Laverstoke, Hampshire, for over two hundred years. It is prepared entirely by hand from specially selected rags, and is washed and re-washed in spring water used for no other purpose. The formula of the ink used in printing the notes is known to only half-a-dozen people. The chief ingredient is charcoal obtained by smoke-drying the wood of Rhinish vines. Each note costs the bank roughly a penny to produce, and the average period of circulation is two and a half months. About 60,000 of the notes are printed daily, while every year nearly 20,000,000 old notes are collected and destroyed.

Effects Of Bad Temper

Increases Amount of Sugar In Blood and Causes Muscular Intoxication

Bad temper, an eminent pathologist has discovered, has the strange effect of increasing the amount of sugar in the blood by 10 per cent. to 30 per cent. in the course of a few minutes. That is why an angry man wants to fight the object of his rage. He becomes hot-blooded because the accession of carbonaceous material intoxicates his muscular system. The strange thing is that this rapid change is due to a tiny gland about the size of a pin. When it functions normally a person remains calm and even-tempered. If the essence exudes too lavishly, hatred, passion and quarrels ensue.

Alberta Oats For New Zealand

Nearly a quarter of a million bushels of oats grown in Alberta, were shipped to New Zealand last winter for seed purposes, according to a bulletin issued by the provincial department of agriculture.

The Proper Time

Grandma—"I'm afraid you'll be late at the party."

Little Girl—"Oh, you dear grandma! Don't you know that in our set, nobody ever goes to a party until everybody gets there?"

All things come with the water who serves an order of hash.

Minard's Liniment for Backache

Puts Flavour into Home Cooking

Don't think of Mustard merely as a spicy relish to enjoy with cold meat.

Mustard is a seasoning to be used as widely as you use salt and pepper.

Mustard brings out the natural hidden flavours of cooked dishes and, adding its own flavour, gives them a new zest and relish.

Keen's Mustard
Aids digestion

Fish For Prairie Lakes

Depositing Fish Fry in the Lakes of Prairie Provinces

Almost thirteen million whitefish and herring fry are being deposited in the lakes of the prairie provinces, according to advice received by officials of the Canadian National Railways. Into Jackfish Lake, near North Battleford, 2,800,000 whitefish and 200,000 cisco (herrings) are being lodged; in Little Quill Lake and tributaries near Wadena, Sask., 1,800,000 cisco are being deposited, and in the Qu'Appelle lakes—Katepwa, Mission, Echo and Sioux—6,000,000 whitefish and 2,000,000 cisco are being cast.

Mother Graduates With Son

Mrs. A. Church, and her son, James Church, classmates for four years at William Jewell College, Liberty, Mo., have graduated. Mrs. Church, who was a grandmother when she entered college, kept house for her family throughout her course. Her object, she said, was to keep pace with her four children, in mental advancement, in order that they might not "drift away" from her.

MINARD'S Relieved His Rheumatism

Here is one of many letters testifying to the relief Minard's gives in cases of rheumatism. "I have been relieved of rheumatism by your Liniment. I thought I would never be free from this malady and I tried many remedies, but Minard's was the only one which gave me relief."

ALPHONSE RICHARD,
St. Samuel, P. Q.

Minard's is also splendid for stiffness of the joints, sprains, bruises, etc.

Human Values

Norah Holland died in Toronto the other day; and the announcement was compressed in a paragraph. Yet Norah Holland was one of the finest and best beloved of Canadian poets, a sweet singer whose songs gushed from her heart, and whose work made life better and richer. We sometimes get strangely mixed in human values.—Ottawa Journal.

PAINS ACROSS THE BACK

Relieved by Lydia E. Pinkham's Vegetable Compound

Mitchell, Ontario.—"I have taken your medicine for a number of years. I do not take it steady all the time, but I am never without it. I always keep it in the house. I took it first for pains in the abdomen and bearing-down pains, headaches and pains across the back. I have my home to look after and many a day I could not get up at all. I saw the advertisement in the paper about Lydia E. Pinkham's Vegetable Compound, and Mrs. John Miller told me about it, too. Every time I take it, it makes me feel better and I always recommend it to my friends. I am willing to answer letters from women asking about this medicine and you may use this letter as a testimonial."—Mrs. F. J. WASSMANN, Mitchell, Ontario.

The merit of Lydia E. Pinkham's Vegetable Compound is told by women to each other. Many women know by experience what this medicine will do and they are anxious for others to know. Such testimony should cause any woman suffering from the troubles so common to her sex to give this well-known medicine a fair trial.

Do you know that in a recent canvass among women users of the Vegetable Compound over 220,000 replies were received. To the question, "Have you received benefit by taking this medicine?" 98 per cent. replied "Yes."

This means that 98 out of every 100 women are in better health because they have given this medicine a fair trial.

This Farmer is Safe

HE has adopted mixed farming. He can be sure always of a comfortable living for his family from the products of the farm, even when crops are poor.

In good seasons, proceeds of his field crops will pay off past debts and provide a surplus in the bank for the future. By spreading his risks over a variety of live stock and crops, the farmer will safeguard his future.

The Royal Bank of Canada

Gleichen Branch • D. Hutchison, Manager

(Continued from Page 1)

The school fair and explains our reasons therefor. Carried.

A letter from Mr. L. P. Pinkerton was read in which he complained that a certain party had plowed considerable portions of the soil on the road allowance east of 32-33-34 and west of S. W. 4-24-23-4. The Reeve who had previously looked into the matter fully explained the situation.

Coun. Thurston: That the secretary be instructed to write the party who did the plowing calling his attention to the fact that such was contrary to the provisions of By-Law No. 4 of this Municipality and that in places the soil was at once put back in places to be taken to pasture. Carried.

Coun. Rasmussen: That the following pay-sheets be passed and ordered paid:

Division 2 \$203.00; Div. 4 \$2.00 (General Act); Div. 6, \$12.00; (General Act); Div. 8, \$12.00; (General Act); Div. 10, \$2.00 (General Act). Carried.

Coun. Maynard: That we purchase a grader for use in divisions 3 and 4 and that the grader now used by those divisions be first used for market road purposes and when not so employed be used wherever directed by the Council. Carried.

The representatives of the various local machinery companies were then given a few minutes to quote prices on the different machines required by the Council after which they retired.

Coun. Maynard: That we purchase an 8-ft. Sawyer-Massey grader with eight-horse hitch and extra blade complete, the same to be used in divisions 2 and 4 and to be paid for out of the general fund. Carried.

Coun. Durston: That we purchase the following machines:

1 six-foot Russell maintenance flange wheel with four horse engine for Div. 3; a similar machine for Div. 4; 1 Sawyer-Massey 8 maintenance flange wheel with four horse engine for Div. 1; and that these machines be paid for out of the appropriation of the Division for which they are purchased. Carried.

Coun. Durston: That we purchase two Road machines, one for Div. 3 and one for Div. 4 and that the same be paid for out of the appropriation for these Divisions. Carried.

Coun. Rasmussen: That we purchase one John Deere Road plow with extra share or use in Div. 3 and 4 and that the same be paid for out of the appropriations for those Divisions. Carried.

Coun. Durston: That the following estimates be approved:

For Division 1 \$2315.00, For Division 2 \$2315.00, For Division 3 \$2075.00, For Division 4 \$2475.00, For Division 5 \$1685.00, For Division 6 \$2400.00. Carried.

Coun. Rasmussen: That we pay the same rate of wages for both men and boys for 1925 as was paid in previous years. Carried.

COMING EVENTS

Adv. under Coming Events 75c. per copy, less, unless otherwise specified, in the Call.

June 6—"Love and Glory", in Gleichen Com. Hall.

June 12—Bow Valley District U. P. A. Assoc. in Meadowbrook Com. Hall.

June 13—"Broadway or Bust" in Gleichen Com. Hall.

June 15—Hoot Gibson in Broadway or Bust, Gleichen Com. Hall.

June 20—U. P. A. Sunday.

June 26 & July 1—Gleichen Stampede and Carnival.

July 18 to 19—Chautauque Entertainment at Gleichen.

COMING EVENTS

The next big world's event is the Gleichen Stampede and Potlatch.

Don't ask what a "Potlatch" is! Come to Gleichen June 30 and July 1.

The visiting crowd very cool the Union Sunday School picnic is being held in the Community Hall this afternoon and the kiddies are all happy.

J. E. Osterander states he sent a copy of the Stampede and Potlatch prize list to friends in Ontario and has had an answer stating they will be hear for the big event.

Mayor A. Janz, of Hurst, was in town Monday and stated his stampede was a great success, also that a big crowd from his district intended coming to Gleichen for the two big days.

The Gleichen Girls' Basketball assure the Call that the ice cream treats they received for winning the game on May 25th were certainly delightful.

H. D. Powers, registered optometrist, starting next Monday will be at the Queens Hotel, Gleichen, every Monday where all who have trouble with their eyes will do well to consult him.

The Gleichen Girls' Basketball played another game last Saturday at the school grounds here. The Strathmore team arrived about 7:30 and the game commenced almost immediately. Not many were present as the game was not advertised, but it was interesting just the same. The score ended 30-8 in favor of Gleichen.

The Knights of Pythias are making rapid progress, also re-organizing Golden Jubilee Lodge No. 85 and already have over 60 members old and young.

Next meeting, June 15, a number of Calgary brothers will be present for the first time. More in each month.

Next meeting, June 15, a number of Calgary brothers will be present for the first time. More in each month.

It is expected before the year ends Golden Jubilee will have over 100 members.

Mr. Shuman formerly conductor of the Gleichen band has left town. The band at present is without a leader, however another conductor is expected down next week. It is the intention of the band to bring a Calgary band down one week to teach and conduct, also for the stampede and potlatch. The band wishes to take this opportunity of thanking the Gleichen Glee Club for their kind contribution of \$35.00. A troupe horn and a cornet have been purchased with this money and will as well as all other instruments remain the property of the band.

Canon Simpson, Western Field Secretary of the General Board of Religious Education, addressed the children of St. Andrew's Sunday School last Sunday morning. The canon questioned the children both senior and junior in their work. Here it may be said every scholar he asked questions of were ready to answer. This more than pleased Canon Simpson to have such a bright lot of scholars in our Sunday school.

Mr. Batchelor will superintend the Sunday school during the summer months, under whose supervision we look forward to great results.

At 11 a.m. Canon Simpson conducted divine service and holy communion, when the church was almost full to capacity. We all hope the canon will pay us another visit at some future date.

Mr. T. B. Batchelor took the evening service and there was a very large congregation at this service.
